What is your goal today?

Your answer will help us guide you to successfully getting started with MongoDB Atlas.

- ☒ Build a new application
- ☐ Migrate an existing application
- ☐ Learn MongoDB
- ☐ Explore what I can build

What type of application are you building?

I'm just exploring

What is your preferred language?

We'll use this to customize code samples and content we share with you. You can always change this later.

JS JavaScript

MongoDB

Deploy your database

Use a template below or set up [advanced configuration options](#). You can also edit these configuration options once the cluster is created.

M10\$0.08/hour

For production applications with sophisticated workload requirements.

STORAGE

10 GB

RAM

2 GB

vCPU

2 vCPUs

SERVERLESS\$0.10/1M reads

For application development and testing, or workloads with variable traffic.

STORAGE

Up to 1TB

RAM

Auto-scale

vCPU

Auto-scale

M0FREE

For learning and exploring MongoDB in a cloud environment.

STORAGE

512 MB

RAM

Shared

vCPU

Shared

Provider

awsGoogle CloudAzure

FREE

Create

Free forever! Your M0 cluster is ideal for experimenting in a limited sandbox. You can upgrade to a production cluster anytime.

I'll deploy my database later
